

WAUSAU SCHOOL DISTRICT

INSTRUCTION

6503

BUILDING-WIDE AND SYSTEM-WIDE SERVICES

Assistive Technology

The Wausau School District provides assistive technologies and related services, in a manner consistent with State Statute 115.76, to students with disabilities. Students, who do not qualify for special education services under the law, may still demonstrate a need for the use of assistive technology devices or services. In addition to student needs, employees may also be considered for assistive technologies. It is the policy of the Wausau School District to consider the use of assistive technology for any student or employee who has a demonstrated need. The determination to provide assistive technologies or services will be made on an individual basis and include an evaluation of the individual's specific needs.
